

The BIG 6
Research Steps

- 1. TASK DEFINITION**
What is the question?
What is the assignment?
- 2. INFORMATION SEEKING STRATEGIES**
How can I find the best possible information?
Do I use encyclopedias, Internet sites, interview specialists, etc.?
- 3. LOCATION AND ACCESS**
Where do I **find** the encyclopedias, Internet sites, people to interview, etc.? Do I go to the library, use a computer, etc.?
- 4. USE OF INFORMATION**
This is the step where you actually **use** the books, use the Internet sites, interview people, etc.
- 5. SYNTHESIS**
How do I want to **share** my information? Do I do a written report, poster, computer slide show, oral report, make a video, game show, etc.?
- 6. EVALUATION**
Judge the Product: Did it accomplish the task?
Judge the Process: What was successful? What would be done differently next time?
