

Calling All Parents of Special Needs Children in Granite District

The Utah Parent Center invites you to participate in a special opportunity to voice your opinions! Granite District is in the self-assessment year of the UPIPS monitoring process. They want to hear from parents who have children receiving special education services in the district. The Utah Parent Center will be hosting several community forums and bringing the information, suggestions, and concerns of parents back to Granite District to be used in their improvement plan. To participate simply show up at one of the locations and times listed below. We hope to see you all there!
