

# The Beach At Cabo

By, Michael L

On our cruise we stopped at Cabo San Lucas to have fun. We took a tour on a boat and went to the beach.

I saw wavy water crashing to shore. I saw white sand that looked fun to play in. I saw a big arch that was very pretty. I saw a lot of sea lions sitting on the rocks and swimming in the water. I saw lots of fish in the water where I was swimming.

I heard a lot of sea lions barking. I heard happy people playing in the water. I heard crashing water hitting the beach.

I could smell the stinky sea lions when we got close to them. When we went to the beach and away from the sea lions I could smell the fresh air.

I walked in the hot sand and dug my feet in it. I swam in the warm water. I wore a snorkeling mask that fit me good. When I got tired I sat on big hard rocks.

When I went swimming in the water I tasted salty seawater. When I got thirsty I drank fruity Gatorade.

We had fun playing at the beach, but we had to go back to the ship.
