

Article IX.A.2.a      Classified Employee Association

The Board recognizes the Granite Education Support Professionals Association as the exclusive negotiating representative for contracted, non-certificated, non-secretarial, non-administrative employees of the District, so long as the majority of said employees support such recognition.

The Board recognizes the Agreement negotiated between the Granite School District Board of Education and the Association.

For the purpose of any District policies, regulations or agreements for classified employees, the term "classified employee" shall apply only to contract employees, unless the term hourly or temporary employee is specifically inserted so that a given provision applies to them.
