

COVID Updates

Robyn Roper
Associate Director, Related Services

COVID Updates

Last year:

- **Granite School District assisted the Salt Lake County Health Department with contact tracing and communication with impacted families and employees.**

COVID Updates

This year:

Salt Lake County Health Department is implementing an infrastructure to reclaim the COVID responsibilities in their entirety.

COVID Updates

The District has been providing:

- **District COVID dashboard of school/district casecounts and transmission rates**
- **A database to input and manage COVID cases**
- **Granite Nurses working COVID cases after hours and weekends**
- **District Communication team to assist in COVID case notifications**
- **POC at each school site to assist in COVID contact tracing**

COVID Updates

Two weeks ago, the Health Department:

- **Hired and trained 50 additional employees to:**
 - Manage contact tracing**
 - Communicate with our families and employees**
- **Developed a data base to input and manage cases**

COVID Updates

Our Point of Contacts (Principals and Assistant Principals):

- **Report cases and exposures using a form provided by the Health Department**
- **Populate into a spreadsheet and display information onto the Health Department's dashboard**
- **This new system will provide more accurate data (case counts) for us and our patrons**

COVID Updates

The new system will allow contact tracers to complete more cases daily, quickly identifies schools that are near the 1% and 2% thresholds, and auto generates letters and communication materials for families and employees.

COVID Updates

Continued Efforts:

-We are prepared with personnel and protocols for Test to Stay.

-High Schools and Junior Highs will manage their own testing.

-Elementary Schools will be managed by Health Department Teams.

COVID Updates

Continued Efforts:

-Our district provides free testing at the Jefferson Junior High Community Center Monday-Friday 2:30-6:30.

-We also advertise various testing sites throughout the valley.

COVID Updates

Continued Efforts:

Communications have compiled a COVID resource page on our district's intranet. This page provides links to documents, leave information, case reporting information, and other resources for our administrators.
