What people have to say about camp:

"I knew a little bit about camp and had high expectations. Those expectations were blown out of the water and more than exceeded. I am now more open to the ideas of others and gaining knowledge and understanding. I learned about myself and the other delegates and what a leader is." –Youth Attendee

"I will never be the same person I was before I came here." –Youth Attendee

"I understand now the value of each and every person and how to utilize that unique value to make a diverse group triumph. In short, I'm a new me." –Youth Attendee

"The staff and the ideas behind this camp will have a lasting impression on the kids that attend for a lifetime. I know that when my two boys came home they could not say enough about what they learned about themselves and about the kids they were fortunate enough to meet." –Parent
